Description

NEW! The Jackson EVO Alloy Plate Outdoor Roller Skates!
The NEW Jackson EVO Alloy Outdoor Roller Skate from ATOM Skates, brings your Outdoor Roller Skating experience to a whole new level! A Beginner to Intermediate level roller skate in a traditional retro hightop with high heell. It's got the Look, Quality and Performance! More than just a pretty face, the EVO talks the talk and skates the skate. Now in Honey Gold, Gun Metal or Hologram, this boot is built with the strong Jackson fundamentals and quality that defines all of their product lines. The new boot sits on our Viper Aluminum Alloy plate, and sports Atom's signature 16-degree trucks. It's responsive, strong and lightweight! Born to party outside, or boogie on the dance floor, EVO will get you where you need to go. Where there's a will, there's a way - Roll Your Way!
All quality components from one of the best names in the skating world! The Jackson EVO skate boots extend from the famous Jackson Ultima company, a leading Canadian company that provides amateur to top pro level figure skating ice boots, now extending their knowledge and expertise to the Roller world! The Jackson philosophy has always been to engage elite skaters in product development to ensure its boots deliver world class performance! The premium Atom Pulse Flash Light-Up wheels in 78A durometer provide excellent grip and roll with a very comfortable ride outside *(the smoother the surface the better)!* A fantastic beginner quad skate for anyone trying to learn rollerskating, or someone just coming back to the sport, without the big pricetag! Fits more feet too with a wider toe box than some of the older traditional hightops that were very narrow at the toes. ***...Don't forget to order your safety equipment too!***
