Description

Roll-Line MATRIX Professional Skate Plates!

Suitable for: Intermediate to Advanced Freestyle, Jam, Rhythm or Recreational skaters!

The Matrix by Roll-Line is designed for Freestyle skaters who have accomplished the first triple rotation jumps and advanced spins. Can also be used by Jam, Rhythm, or recreational skaters. The Roll-Line Matrix is the plate purposefully designed for the advanced Freestyle skater who executes the first triple-rotation jumps and advanced spins. The 5mm-lowered trim significantly increases stability in landing jumps and maneuverability while pressing edges. The Ergal Aluminum alloy frame and the Champagne color of the Matrix makes it the plate that is chosen because it is well built, and attractive, too. The differentiation of the left and right plate provide precision in the toe-assisted jumps, especially the Toe-Loop, Flip, and Lutz.

Ordered this plate, working with rollerskatin.ca was extremely easy. This plate itself is amazing. It takes alot of thought to mount the plates, and be sure to get the left (sx) and right (gx) on the correct foot! I also had to upgrade my cushions as I'm a heavier build, but this plate lets me make quick dance movements with ease. I can feel the improvement in jumps. Well worth the price tag.
