Description

Roll-Line Mistral Figure/Dance/Jam Skate Plates

Suitable for: a professional use that ensures high performance.

The Mistral Frame by Roll-Line {formerly named Navigator) is designed for the Freestyle skater who is skating double-rotation jumps and advanced spins. The Mistral would also be an appropriate selection with quality results for all other forms of quad roller skating. The Mistral by Roll-Line is for the Freestyle skater who is dedicated to their career and expects the most from their skates. The Mistral is for the athlete performing double jumps and advanced spins. The differentiation of the left and right plate provide precision in the toe-assisted jumps, especially the Toe-Loop, Flip, and Lutz. The Mistral has urethane cushions and the “click action” adjustment system.

• Note: Smallest diameter wheel that will fit this plate is 53mm.

I have moved to the Mistral plates from Powerdyne Neo plates and what a difference! I am not a high-level roller skater, but I work on

edges and learning some foot work, and Mistral plates are very responsive and make many elements effortless (especially relatively to my previous plates, that were recreational). I chose these plates because they can work for a variety of roller skating fields and they certainly did not disappoint!
Highly recommended!
