Description

SISU Aero Guard Mouth Guards – BEST for Roller Derby and Rollerskating!

New sizing system for SISU Aero!
Research suggests the taller you are, the larger your dental arch. And thus, a bigger mouthguard is required as height increases. The new and improved sizing system uses the findings of extensive research and testing to suggest the proper guard for you based on how you measure up. Check out the New SISU Aero to find your perfect fit.

AERO - SIZE CHART

SIZE	SMALL	MEDIUM	LARGE
ATHLETE HEIGHT	Under 5'	5' - 6'	Over 6'
MOUTH SIZE	For smaller mouths and children	For average mouths	For larger mouths
BRACES	NO (Use medium)	YES	YES

Consider sizing up if you have a larger than average dental arch, or down if you have a smaller than average dental arch.
If you have braces, you must use a medium (for children) or a large (for adults).

ADVANCED TECHNOLOGY
The SISU Aero Mouthguard is the latest evolution in mouthguard engineering by the makers of SISU Guard. Simply put, it is the most powerful mouthguard we've ever built. With its unmatched quality and functionality, SISU NextGen was designed with the athlete in mind, and its unique new features are hyper focused on additional protection and comfort.

MORE PROTECTION
The Aero is made from a high-tech thermoplastic material that is 30% stronger and has 8x greater tensile strength than conventional mouthguard materials. This means that no matter how intense things get during game time, your SISU Aero has your back and your teeth.

WAY LESS MOUTHGUARD
The most unique feature of the SISU Aero is its super-slim, ultralight design. At a lean 1.6 mm, the Aero is 50% thinner than your standard mouthguard. Combined with its quick, custom and remoldable fit, you´ll entirely forget there's something awesome and plastic inside your mouth.

SISU AERO IS THE BEST MOUTHGUARD FOR TEAM SPORTS:

- ROLLER DERBY
- ROLLER SKATING
- HOCKEY
- LACROSSE
- SOCCER
- BASKETBALL
- And more!

DETAILS:

- Talk, breathe, and drink!
- Remoldable
