Description

The Sure-Grip Park Series truck is the first-ever roller skate truck designed from the ground up specifically for park skating! Patterned after the Sure-Grip Supreme 7.5 truck (usd in our SteetSkater™ skate) but redesigned to accommodate ALL 10-degree standard plates. Unique 2-7/8”

wide truck shoulder is the perfect size for grinding while not setting your wheels too far apart. The truck sits slightly higher than a standard truck which allows for more kingpin clearance than anything on the market! Made in the USA from Prime grade material and machined in house. Available with standard 8mm axles. The set includes all 4 Park trucks needed for a set of roller skates!
