Description

TSG Professional Kneepads!

These Pre-Shaped street knee pads with shock-absorbing EVA foam and a PE cap protect against impacts and abrasions. The sleek and ergonomic pull-over design provides a great fit and comfort for beginner roller derby, park and recreational roller skating!

Features:

- **HARDSHELL CONSTRUCTION:** For maximum safety, TSG's hardshell construction combines a super strong injection moulded outer shell and a shock absorbing EPS inner shell.
- **EVA FOAM:** EVA provides great shock absorbing properties, stress-crack resistance and low-temperature toughness. It can be used in multi layers and is backed with hard shell caps for a solid performance.
- **PE KNEE CAP**
- **PRE-SHAPED DESIGN:** TSG's pre-shaped body protection comes with a pre-bended articulated design for unrestricting wearing comfort and superior fit.
- **STRONG CORDURA FABRIC**
- **HORSESHOE SHAPE:** Custom Horseshoe shape that greatly surrounds knees, elbows or shoulders. The compression-moulded foam pad with a raised top part sits perfectly around your protected joints. This shape minimizes shifting and down-sliding to keep your pad in place during action.
- **TOP VELCRO 360-DEGREE STRAP: BOTTOM VELCRO STRAP**
- **PULL-OVER DESIGN:** Pull up and fix straps for the most secure and shift-free fit and wearing comfort

NOTE: Only Medium size available!
